Illegal Immigration in Florida: Conservative Solutions to a Growing Problem

***Representative William Snyder
District 82***

***Brewster Bevis
Associated Industries of Florida***

As Republicans, we believe that our state, like our nation, faces great challenges from the threat of illegal immigration. And, we believe the time has come to tackle this growing problem head-on. At the same time, we are cognizant of the potential impact that government regulation of our businesses can have on economic growth and prosperity for all of us. We hope to offer an informed discussion of the different perspectives on this ever-evolving issue, to promote effective and functional immigration policies that will serve as a conservative model for other states.

We are honored to be joined by two informed panelists, who have devoted themselves to fully understanding and evaluating our immigration challenges: State Representative Will Snyder, who sponsored the Immigration Enforcement Bill considered by the House of Representatives during the last legislative session, and Brewster Bevis from Associated Industries of Florida, a Tallahassee association promoting principles of free enterprise. Both speakers will present their perspectives on the state of illegal immigration in Florida and the opportunities for achieving a truly conservative and effective solution to the challenge. .
